

Hank Williams Jr. "Getting Over You"

Visit "[Getting Over You](#)" on MotoLyrics.com

I sold my car to buy more wine
I hocked my watch, I've lost track of time
Days with you went by so fast now I'm trying to relive
the past
You don't know what I've been through getting over you

I've tried to love other women but I can't
You've really made a mess out of what used to be a
man
I thought I drowned the fire in others but you're still my
only lover
You don't know what I've been through getting over you

Bridge:

I got some pills from a ol' doctor friend
The bottle said one every 12 hours for pain
But this pain I feel ain't small that's why I took them one
and all
It was something I had to do to get over you

No, the pain I feel ain't small
Lord I took them one and all
It was something I had to do to get over you
