Well the mustang pulled in a no parkin' zone
Out stepped a chic with legs to the bone
Alabama figure and a Tennessee smile
Louisiana walk that'll drive a man wild

Now go girl go... go girl go
It's quite a show, go girl go

When she goes to the party and she starts to dance
All the other girls they ain't gotta chance

Now go girl go... go girl go
It's quite a show, go girl go

Well the way she wiggles when she starts to walk
All the men want to do is talk

Now go girl go... go girl go
It's a hell of a show... go girl go

When she eased into my Cadillac
I gave her the look and she gave it right back

And now go girl go... go girl go
It's quite a show... go girl go

Alabama figure and a Tennessee smile
Louisiana walk that'll drive a man wild

Now go girl go... go girl go
It's quite a show... go girl go
