Chorus:

Well it don't take long to get there if you're high and  
pressurized  
It ain't very far from nowhere if you're high and  
pressurized  
And you do a better show there if you're high and  
pressurized  
And the only way to go there is high and pressurized

Now I used to ride in buses and I hated every mile  
Cause travelin' in a Greyhound ain't ridin' in style  
Cause the damn thing's always broke down and the  
tires'll go flat  
I've always been against bussin' cause bussin' ain't  
where it's at

Chorus

Now I used to invite ladies for a grand tour of the bus  
But I look down the hallway and there'd be 15 more of  
us  
That's just one of the problems with a hillbilly bus  
But I'm a sophisticated singer now and a member of  
the mile high club

Chorus:

Well it don't take long to get there if you're high and  
pressurized  
It ain't very far from nowhere if you're high and  
pressurized  
And you do a better show there if you're high and  
pressurized  
And the only way to go there is high and pressurized

Chorus
