Six hours behind, the changes of time
Ten thousand miles from home
I'm so far away, so long it seems like
This road is all I know

When I was young I dreamed of adventure
And places I'd never seen before
But when I close my eyes as I sleep at night
All I dream of now is home

So long that I've been gone
If there's one thing I know
Is that there's no place like home

Far away and changes everyday
If there's one thing I know
Is that there's no place like home

Six months since the day I went away
It didn't seem like that long
It hit me when I was changing planes
From Paris to New York

I'm dreading the days that are ahead
I haven't slept in my own bed
Ohh, I'm dreamin' of home

What I've seen and what I've done
Don't mean a thing without where I came from
It's who I am and all I ever did
Home is where the heart is

So long that I've been gone
If there's one thing I know
Is that there's no place like home

Far away and changes everyday
If there's one thing I know
Is that there's no place like home

Call me, tell me that you miss me
Give me somethin' I can hold on to

To get me through the days when I am

I can take another moment
I need some clarity
Remind me what it's like to be
Be like home

Far away but there's no place like home
I wanna go home, home, home
Bring me back home, home, home

So long that I've been gone
If there's one thing I know
Is that there's no place like home
No place like home
