I Ain't Goin' Peacefully

Garth and Clint and Alan them boys' have got it made
Cut their teeth on whiskey bent and now
Their tryin' to put me in the shade
I can tell you they've done a good job
'Cause it's been a long dry spell
But the day you think I'm gonna quit
That'll be a cold day in the well

'Cause I ain't goin' peacefully
I'll be up there swingin'
Just trying to make a hit
And have a little bit fun when I'm singin'
No I ain't goin' peacefully
Yes I'm gonna put up a fight
I've been known to take a chance and make people
dance
And stomp their boots all night

Travis and Aaron and John Michael I'm glad I got to see
them shine
I've been a lucky man to have them as friends of mine
Garth said he's made more money now
Then his grand-kids can ever spend
Well my ex-wife spent what I had
That makes me one fightin' mad man

So I ain't goin' peacefully
I'll be up there swingin'
I'm just trying to make a hit
And be sure and have a little bit of fun when I'm singin'
No I ain't goin' peacefully
I'm gonna put up a fight
I've been known to take a chance and make people
dance
And stomp their boots all night
