I had that dream again the same one I've had before  
I heard you call my name saw you standing at the door  
I reached out to hold you but you faded away  
And the mood I'm in I hope it rains today  
Your lips were there in the shadows warm and sweet  
I tried to run to them but I had shackles on my feet  
I heard you laughing at me in that old familiar way  
And the mood I'm in I hope it rains today  
I hope the clouds will cover up the sky  
I don't want somebody's happy sunshine shining in my  
eyes  
Our love was just a dream I couldn't make it stay  
And the mood I'm in I hope it rains today and the mood  
I'm in I hope it rains today
