Don't doubt me every chance you get
Don't give me that ol' cold shoulder
Honey I don't like it
Baby you got a stubborn streak, baby you I do too
It's not your pretty little head, it's your heart I'm
talkking to
I try to tell you some sweet things, you try to turn it
around
You think I'm talking about some other girl in some
other town
Well if you'd listen to me you might like what you hear
Because what I'm about to sing I wanna make perfectly
clear

I mean, I mean, I mean, I mean I love
I dream, dream, I dream, I dream all night of you
I'll kiss, I'll kiss, I'll kissity kiss, kiss, kiss all over you
I do, yes I do, indeed I do, I show do love you

Now it did take a while for our love to grow
I tell you get out of here and you call me so and so
Honey I've been hurt before and you have too
So we were just scared to death to let our feelings
come through
Once you loosened up and took the chains off our
hearts
Now I don't ever, ever, ever, ever want to be apart

I mean, I mean, I mean, I mean I love
I dream, dream, I dream, I dream all about you
I'll kiss, I'll kiss, I'll kissity kiss, kiss, kiss all over you
I do, yes I do, indeed I do, I show do love you
