(Bocephus getting lovin', Bocephus in trouble)
(Bocephus getting lovin', Bocephus in trouble)
(Bocephus getting lovin', He's not responsible)

Hey when you let me hold you and kiss you this way
I'm not responsible for what I might say

I'm not responsible (He's not responsible)
I'm not responsible (He's not responsible)
I'm not responsible when your loving me this way

You want me to marry you and give you a ring
But I'm not gonna mess up a real good thing

I'm not responsible (He's not responsible)
I'm not responsible (He's not responsible)
I'm not responsible when your loving me this way

(Bocephus getting lovin', Bocephus in trouble)
(Bocephus getting lovin', Bocephus in trouble)
(Bocephus getting lovin', He's not responsible)

When you mix kisses with strawberry wine
And you do the rubbing dubbing your gonna have a
good time

I'm not responsible (He's not responsible)
I'm not responsible (He's not responsible)
I'm not responsible when your loving me this way

Well you do the take honey and I'll do the give
You know with me that's the only way to live

I'm not responsible (He's not responsible)
I'm not responsible (He's not responsible)
I'm not responsible when your loving me this way

(Bocephus getting lovin', Bocephus in trouble)
(Bocephus getting lovin', Bocephus in trouble)
(Bocephus can't help it, Bocephus in trouble)

Hey when you you let me hold you and kiss you this
way
I'm not responsible for what I might say

I'm not responsible (He's not responsible)
I'm not responsible (He's not responsible)
I'm not responsible when your loving me this way

When you mix kisses with strawberry wine
And you do the rubbing dubbing your gonna have a big
time

I'm not responsible (He's not responsible)
I'm not responsible (He's not responsible)
I'm not responsible when your loving me this way

(Bocephus needs rescue, Bocephus in trouble)
(Bocephus getting lovin', Bocephus in trouble)
(Bocephus can't help it, Bocephus in trouble)

Hey I'm not responsible when your loving me this way
I'm not responsible for what I might say
