The left wing liberal media have
Always been a real close knit family
But, most of the American People
Don't believe em anyway ya see
Stop and think it over
Before you make your decision
If they smell something
They're gonna come down strong
It's a McCain - Palin tradition

Now this old Union's got problems
That is plain to see
The Democrats bankrupted Fannie Mae N Freddie Mac
Just like 1, 2, 3
The bankers didn't want to make all those bad loans,
But Bill Clinton said you got to
Now they want a bail out, what I'm talking about
Is a Democrat liberal who doo

CHORUS

John N Sarah tell ya
Just what they think
And they're not gonna blink
They don't have terrorist friends
To whom their careers are linked
Yes, John is his own man
And Sarah fixed Alaska's broken condition
They're gonna go just fine
We're headed for better times
It's a McCain - Palin tradition

I am very proud of our country's name
But no society is perfect
And we have had our stains
If I'm down at the coffee shop and
Somebody starts to give our flag friction
We say please move on
Cause we're standing strong
That's an old John McCain tradition

CHORUS

John N Sarah tell ya
Just what they think
And they're not gonna blink
And they're gonna fix this country
Cause they're just like you N ole Hank
Yes John is a maverick
And Sarah fixed Alaska's broken condition
They're gonna go just fine
We're headed for better times
It's a McCain - Palin tradition

Some are bound to tell you I'm
Preaching to the choir
And that is very true
And we are going even higher
Like a mama bear in Idaho
She'll protect your family's condition
If you mess with her cubs
She's gonna take off the gloves
It's an American female tradition

CHORUS

They all want to know Sarah
Why do you hunt
John why do you fish
How could she be so smart and savvy
Such a 'hey good-lookin" dish
Yes John is his own man
And Sarah fixed Alaska's bad condition
They're going to get it right
We're going to see the light
It's a McCain - Palin tradition
