Next time I say goodbye I'm leaving I'm leaving even
though I love you so
Next time I say goodbye I'm leaving unless I change my
mind before I go
I know that's what I said the last time the last time and
a hundred times before
But darling next time I say goodbye I'm leaving
Unless you kiss when I reach the door
Your tender lips soon melt my will of art
Your loving tricks may mean or make my name of mind
Next time I say goodbye I'm leaving unless I change my
mind before I go
[guitar]
Next time I say goodbye...
Unless I change my mind before I go
