There's some things in this country you don't
mess with
And I am blessed to be on that short list
We're out here in the real world
Not that feel good media swirl
And we got somethin' for you read our lips
They made a huge miscalculation
About the mood of this nation
Good working people done got tired of being wrong
Then they saw one of their own get mistreated and
dumped on
Hey we're standing behind him he's not alone
Never kick a cow turd on a hot day
Or you might get some poo on your pants leg
Thought they were gonna have some fun kickin'
around old Hank's son
But America had my back all the way
Remember never kick a cow turd on a hot day
Never pick up a rattlesnake the wrong way
Never ever kick would have been much smarter just let
it sit
Never kick a cow turd
Should have let the man just be heard
Never kick a cow turd on a hot day
