Mr. Weatherman, what is your forecast?
I need a major change.
I can't stand no more rain.
Everything is going wrong.
Please tell me it's something in the ozone.
Or is the atmospheric pressure just too strong.
I can't ride out one more storm.

'Cause I've had too many highs and too many lows,
Too many storms and tornadoes.
I need some blue skies and sunshine,
I need a good forecast tonight.

'Cause I've had too many highs and too many lows,
Too many storms and tornadoes.
I need some blue skies and sunshine,
I need a good outlook tonight.
Hope your weekend forecast is right.
Hope you got me in your weather eye.
