Well it's over yes it's finished that's what they tell me
The judge just signed the papers at his desk
Well it's over and it's finished so they tell me but oh
what a heck of a mess
There stands my daughter and my son she's just three
he's only one
They don't seem to understand why mommy's
standing with another man
Well it's over and it's finished guess I'll move to a new
address
But oh what a heck of a mess
[steel]
There stands my daughter and my son...
But oh what a heck of a mess
