

Hank Williams Jr. "Window Up Above"

Visit "[Window Up Above](#)" on [MotoLyrics.com](#)

I've been living a new way of life that I love so
I can see the clouds are gathering and the storm will
wreck our home
For last night he held you tightly and you didn't even
shove
This I know for I was watching from the window up
above
You must have thought that I was sleeping Lord I wish
that I had been
But it's best to get to know you and the way your heart
can sin
I thought that we belonged together that our hearts fit
like a glove
But I was wrong for I've been watching from the window
up above
[steel]
From my eyes the teardrops started as I listened on
and on
I heard you whisper to him softly that our marriage was
all wrong
Well I hope he makes you happy and you don't ever
lose his love
I lost mine while I was watching from the window up
above
Yes I hope he makes you happy and you don't ever lose
his love
I lost mine while I was watching from the window up
above
