I like to play my music and have good times
I love to hear an old train rolling down the line
I am into happy and I don't like sad
I like to have women I never had
I take a little smoke and a lot of wine
I get high and call old friends of mine
I like the sweet young things and Old Grandad
I like to have women I've never had

I like to ride my hoses and shoot my gun
You know a cowboy's work is just never done
I am in to basics and I don't like fads
I like to have women I never had
Hey I don't mean to ever do nobody no wrong
I was just born the son of a singers song
I do things to make people mad
I like women I never had
