[Some people talk too much...]

You speak for nothing  
You're blowing our minds  
You scream for nothing  
Destroying our ties  
You speak for nothing  
Submerge us with lies  
You scream for nothing  
You're smashing our lives

You'll reach down to hell's gates  
Your blood will start to boil

Tell me again  
I am wrong and confused  
Show me again  
I'm just dust in the wind  
Tell me again  
And you'll see, I'll refuse  
Show me again  
You're insane, you're nothing

You'll reach down to hell's gates  
Your blood will start to boil

Watch out! Death's all around!  
Be honest! Judgment day is coming!  
Wake up! Can't you hear the sound!  
Be careful! The end is arriving!

Lethal liar  
You lie to yourself  
Lethal liar  
You will die by yourself

All of your friends  
Never say anything  
You think they love you  
They'll never get out  
All of your friends  
Feel this fear arising

You think they love you  
But they could knock you out

You'll reach down to hell's gates  
Your blood will start to boil

Watch out! Death's all around!  
Be honest! Judgment day is coming!  
Wake up! Can't you hear the sound!  
Be careful! The end is arriving!

Lethal liar  
You lie to yourself  
Lethal liar  
You will die by yourself

There'll come a time  
You'll have to give, not take  
And of your life  
You'll be disowned by your friends  
There'll come a time  
You'll realize your mistakes  
And of your life  
You will soon see the end

You'll reach down to hell's gates  
Your blood will start to boil

Watch out! Death's all around!  
Be honest! Judgment day is coming!  
Wake up! Can't you hear the sound!  
Be careful! The end is arriving!

Lethal liar  
You lie to yourself  
Lethal liar  
You will die by yourself

You'll end up in hell
