Now you can say I'm addicted  
I admit I'm afflicted  
By the way you affected me so hard  
I am helpless

Boy you're just like a drug  
You're like the illest bug  
The way you're makin' me sick  
I just can't handle it

We steady breakin' up, makin' up  
Boy, ain't I good enough  
Tell me what's wrong with us  
Tell me what's wrong with us

We steady breakin' up, makin' up  
Boy, ain't I good enough  
Tell me what's wrong with us  
Tell me what's wrong with us

I got whatchu want, I got whatchu need  
Tell me why you don't love me  
I got whatchu want, I got whatchu need  
Tell me why you don't love me

So while we goin' in circles  
Boy, you wanna show boat tellin' all of ya friends  
How you got me trippin', I know I been on a slow route  
Why? 'Cause you cheated without doubt

But I ain't tryin' to to find another man  
My first reaction was I invested too much time  
You think I'm packin'  
And you must've lost your mind

We steady breakin' up, makin' up  
Boy, ain't I good enough  
Tell me what's wrong with us  
Tell me what's wrong with us

We steady breakin' up, makin' up  
Boy, ain't I good enough

Tell me what's wrong with us  
Tell me what's wrong with us

I got whatchu want, I got whatchu need  
Tell me why you don't love me  
I got whatchu want, I got whatchu need  
Tell me why you don't love me

Where is the love you don't show me  
I'm in love, but love, don't love me

Boy, I can't believe you cheated  
I forgive you, then you leavin'  
Come on, come on, come on  
I feel like an idiot, I just can't put up wit this  
Come on, come on, come on

Boy, I can't believe you cheated  
I forgive you, then you beat it  
Come on, come on, come on  
I feel like an idiot, I just can't put up wit this  
Come on, come on, come on

We steady breakin' up, makin' up  
Boy, ain't I good enough  
Tell me what's wrong with us  
Tell me what's wrong with us

Where is the love you don't show me

I got whatchu want, I got whatchu need  
Tell me why you don't love me  
I got whatchu want, I got whatchu need  
Tell me why you don't love me

Oh, I'll always love you  
So tell me, tell me why you don't love me
