Baby, I'm your little mistress
Waiting for a ring
From my king now

You're my knight in shining armour
I'm your maiden in distress
I'm such a mess now

You've just ruined my make up baby
You don't even know my name
You just don't care but still you hunt me
You don't really feel the same
I'm dying to make you want me, want me too
'Cause I want you
I want you

I could see our future clearly
So tell me, who's that girl?
Who holds your hand now

Baby, I forgive you
I know she means nothing to
Means nothing to you

You've just ruined my make up baby
