Tried a thousand times, used a million lines
Tryin' to explain
'Cause they don't have a word
For the kind of hurt that never goes away

When I try to think it though, it all comes back to you
I don't know why goodbye's so hard to understand
This pain I have is real an' I'll tell you how it feels
If I ever get the chance

It's like a lonely Friday night downtown
Where everyone I know is out
The radio's my only friend around
And all I do is think of you

It's a little like an old sad song
It kills you but you sing alone
The melody just tears you all apart
It's something like a broken heart

I could drive a hundred miles an' never touch that dial
Till the station fades
'Cause nothin' that I hear
Will ever make it clear words just slip away

And the more I think it through, the more I think of you
I don't know why goodbye's so hard to understand
You're never hard to find, 'cause you're always on my
mind
No matter where I am

Just like a lonely Friday night downtown
Where everyone I know is out
The radio's my only friend around
And all I do is think of you

It's a little like an old sad song
It kills you but you sing alone
The melody just tears you all apart
It's something like a broken heart

It's like a lonely Friday night downtown

Where everyone I know is out
The radio's my only friend around
And all I do is think of you

It's a little like an old sad song
It kills you but you sing alone
The melody just tears you all apart
It's something like a broken heart
