

Hannah "Never Mind"

Visit "[Never Mind](#)" on MotoLyrics.com

Always saying what you want to say
Feel the pain that never fades away
You pass the day
By that bottle that you drink
You can never see
Anything you don't want to see
Sitting on the porch
Staring into the sun's burning rays
Always
Always

[Chorus]

You
Never seem to care
It's like your never there
You just walk on by
Everything you feel the need to say
Slowly fades away
Slowly fades away
And you just say
Never mind

[Verse 2]

Your whiskey bottle almost empty
The time you had is gone
You life is all about envy
Feel like you did before
You close that open door

[Chorus]

Ohhh yeah
