I can be red I can be blue  
I can be whatever you want me to.  
Whatever it is, yeah, I can be it for you.

I can learn French, yeah, I'll learn it for you.  
Je suis dans l'amour, que pensez-vous?  
Whatever it is, yeah, I can learn it for you.

You got me stut-stut-stuttering day long  
And when I think about you  
I sing this song  
Cause I do, I got something for you

I can make pancakes for you,  
Oh oh, breakfast in bed for two  
Yes I can, yeah I can make it for you

I think I can wait for you  
Oh, I will if you need me to  
Cause I do, I got something for you

You got me stut-stut-stuttering day long  
And when I think about you  
I sing this song  
Cause I do, I got something for you

You got me stut-stut-stuttering day long  
And when I think about you  
I sing this song  
Cause I do, I got something for you  
I got something for you  
I got something for you
