Sometimes I wish I could be...  
Sometimes I wish I just wasn't me..  
Sometimes I wish that I...  
that I could touch the sky  
that I wouldn't shy again  
that I could fly away....  
fly away  
fly away  
fly away  
So many hard times I went through  
Wouldn't have em if it weren't for you  
I just need to fly away  
and come back another day  
The good times are over

Now around here it's all sober..  
I've been waiting for a change  
But now stuck in these kind of days  
Sometimes I wish I could fly away..  
fly away  
fly away  
fly away  
Give me a break  
I made just one little mistake  
I know have a heartache
