Well, I met her yesterday
She just came into my way
And I was so surprised
She told me that she loved me
Always would be true to me

Never tell no lies to me
She said her love was free
And I thought that I might
Just take a chance on her
Try hard to get into her

You know what I did?
I told her that I love her
Told her that I care
I said I'd be free to ride
And to do it anywhere

Never want no love affair
I just like the clothes you wear
There's one thing I gotta do
Before I kiss you

(I wanna beer and a cigarette)
I've got to get myself an ice cold beer
(I wanna beer and a cigarette)
And I need a cigarette, well I
I didn't come here for no fix, I just need a beer

(I wanna beer and a cigarette)
Oh babe, I got to get myself
(I need a beer and a cigarette)
Lord, there's only two things on my mind
(I wanna beer and a cigarette)
Too much ain't enough
(I need a beer and a cigarette)
Well, and a cigarette, and beer
