Ok! If you wanna do the duck, Forget everything about  
rock, Suck the duck, That's right

Do it step by step, day by day, The way I say go all the  
way, Doing the duck, right!

Do it on the streets to the big beat, of the Hanoi Rocks,  
Mike Monroe is now going to show you how to do the  
duck

Our point is that you can suck the duck, Something  
new, I never knew, Something new, I never heard of  
You got to shake your legs, clap your hands, stamp  
your feet, Until you feel heavy, You got to move your  
lips

shake your hips, touch your tits, Until you feel heavy,  
It's something new, and it sure looks cool

It's something new, and it sounds good too, Just move  
fast, shake your ass, smoke your stash, Until you feel  
heavy

You got to do the duck, Until you feel heavy, The  
weekend's over, you're getting sober

You take a shower and you start all over, You do the  
duck, you do the duck, You do the duck, you do the  
duck

You do the duck, you do the duck, You do the duck, you  
do the duck

Do it step by step, day by day, The way I say, when I tell  
you to do it, do it, Do it baby, baby

Do it, do it, do the duck, All right, let's rock on doing  
the duck, Suck the duck, suck the duck, Donald Duck

Take your first leg to right, walk on two, All right
