I'm in a problem, can't find a solution
Problem, give me the solution, Problem, I'm causing
confusion, Problem
Energy pushing in my blood, I could kill myself but I
haven't got the guts, Oh no
Well it's a Saturday night, I got nothin' to lose,
I'm all out of money, I'm all out of booze
I'm walking down the street, I'm in the need of blues
Problem child, and I'm wild, I'm in the need to break all
the rules
I'm in a problem, problem, problem, problem ,
problem, problem, problem child, yeah
