"Teenage Revolution"

Visit "[Teenage Revolution](#)" on MotoLyrics.com

An image with your kind of potential
Can shape up all the shapes of things to come
You build your dreams so high, up to the sky
Don't let them crumble down on you

Now if ever all the kids should get united
And change this world for better once 'n' for all
Grab the power, steal the throne
Use software, sticks or stones
Don't let this planet burn down, down, down, down
Yeah, yeah, yeah, yeah

Teenage revolution
In the heart of the town
Teenage revolution
Spread the word around

Now they got two guns per every household
Like in the wild western days of old
They build more prisons than schools
Too many trigger-happy fools
Don't let them shoot you down, down, down, down
Yeah, yeah, yeah, yeah

Teenage revolution
In the heart of the town
Teenage revolution
Spread the word around

Teenage revolution
Teenage revolution...
