Well, I gotta move in order to groove, I gotta dance,
prance step by step now
I'm on the move
Put on my blue suede shoes and shake up the blues
I'm only two steps from the move, now
I am two steps from the move

I am two steps from the move
(Got to move) I keep the nation under a groove
(Got to move) I am two steps from the move
(Got to move) No, trying to cool me ain't no use
I'm on the move

And when the move time siren blows
I close my door and it grows and it grows, so I go
Just say bye bye

I am two steps from the move
(Got to move) I keep the nation under a groove
(Got to move) I am two steps from the move
(Got to move) No, trying to cool me ain't no use
I'm on the move
