"Make Some Noise"

Make some noise with bold declaration
Make some noise with all you have
Make some noise without reservation
Make some noise for the son of man

These walls were made to be broken down
For our spirits to be built up
Waiting for the final days
Where the sword will make precision cuts

'cause this what I want. yeah
'cause this what you want yeah
'cause this what we want yeah

'cause this I what we got yeah
We got it

Seen a share of enemies succeed
And profit gone to grave
I see... I see seen revival within my heart
And taken hold of freedom keys
