Even when you're gone I still carry on
All you did was take up my time
Baby when you're leaving you won't see me grieving
I don't even care
Be on your way

You were on the road acting like a rolling stone
Wasn't sitting home alone with your silk scarf

I'm not still attached
'Cause your love is in my past
Like the scratches on my back
That you left behind

Even when you're gone I still carry on
All you did was take up my time
Baby when you're leaving You won't see me grieving
I don't even care
Be on your way

Even when you're gone I still carry on
All you did was take up my time
Baby when you're leaving You won't see me grieving
I don't even care
Be on your way

Your love was sweet but even when you're gone I won't
skip a beat
'Cause I take what I want
You tried to play me but my game will carry on and on

We both used each other underneath the covers
But only one of us was using you

Even when you're gone I still carry on
All you did was take up my time
Baby when you're leaving You won't see me grieving
I don't even care
Be on your way

Even when you're gone I still carry on

All you did was take up my time
Baby when you're leaving You won't see me grieving
I don't even care
Be on your way

Your love was sweet but we both used each other
Baby be on your way
Take your silk scarf and drive
