Oh

I'll follow your lead

Oh

I'll follow your lead

Oh

I'll follow your lead

Oh

I'll follow your lead

Oh

I'll follow your lead

Oh

I'll follow your lead

Oh

I'll follow your lead

Oh

Through the crossroads

Pick up your shoulder

You are not a child

Don't need no natural born soldiers

'Cause it's not that kind of fight

There is no water

That can wash off this disease

But if you'll just stand up

Then I'll follow your lead now

Let's get up and make it known

Never take a chance alone

I'll be there whenever

You're at a crossroads

I know it will take some time

I know it's gonna take it slow

All you gotta do is show me

And I'll follow you're lead

Oh

I'll follow your lead

Oh

I'll follow your lead

Oh

I'll follow

Through the crossroads

So pull off your blinders

And pick up the pieces

It only gets harder t

He longer you deny

You will discover

You got all that you need

Review where you're standing

And I'll follow your lead

Get up and make it known

Never take a chance alone

I'll be there whenever

You're at a crossroads

I know it will take some time

I know it's gonna take it slow

All you gotta do is show me

And I'll follow your lead

Oh

I'll follow your lead

Oh

I'll follow your lead

Oh

I'll follow your lead

I'll follow your lead

Oh

I'll follow your lead

Oh

I'll follow your lead

Oh

I'll follow your lead

No

No

Yeah
We can build it up
Build it up
Build it up 'til it's strong

We can build it up
Build it up
Build it up when you're wrong

We can build it up
Build it up
Build it up 'til it's strong

We can build it up
Build it up
Build it up when you're wrong

Oh yeah
I'll follow your lead
No
No

Well I'll follow your lead
Oh
I'll follow your lead
Oh
I'll follow your lead
Oh
I'll follow your lead
Oh

Get up and make it known
Never take a chance alone
I'll be there whenever
You're at a crossroads
I know it will take some time
I know it's gonna take it slow
All you gotta do is show me
