GLIMMERING GIRL

Wrap up the world forever
Make the stars into a string of pearls
Give it all to the glimmering girl
Give it all to the glimmering girl

All that I've got to give her
Find a way to get her more
Give it all to the glimmering girl
Give it all to the glimmering girl

Well I've got her heart on my mind
Soon you'll be hurt everytime

Running on my devotion
And seal it with the sweetest kiss
Give it all to the glimmering girl
Give it all to the glimmering girl

I know we'd be together
If she only knew affair like this
Give it all to the glimmering girl
Give it all to the glimmering girl

Well I've got her heart on my mind
Soon you'll be hurt everytime

How could I ever leave her
When her emotions carry me away
Give it all to the glimmering girl
Give it all to the glimmering girl

There's nothing that I have that is worth keeping (Worth
keeping)

She wants it from me
If only she could see the way I need her
Give it all to
Give it all to
Give it all to the glimmering girl
Give it all to the

Give it all to the
Give it all to the glimmering girl

Love won't be gone forever
And forever is a long long time
Give it all to the glimmering girl
Give it all to the glimmering girl

I'll wait for her I've got time
She doesn't know what's mine...
Give it all to
Give it all to
Give it all to the glimmering girl
Give it all to the
Give it all to the
Give it all to the glimmering girl

Give it all to
Give it all to
Give it all to the glimmering girl
Give it all to the
Give it all to the
Give it all to the glimmering girl
