Well I hope it comes now Well I hope it comes soon  
Well, I think it's about time I stopped waiting for you,  
for you

You know that there's nowhere else to pass the buck  
this time  
We run every time it's getting rough 'Cause there is  
nowhere to hide  
It's hard just making it by But I'm tired of toeing the line  
Feels like a change is going to come

Well I hope it comes now Well I hope it comes soon  
Well I think it's about time I stopped waiting for you  
Well I hope it comes now Well I hope it comes soon  
Well, I think it's about time Feels like change is coming  
Well I hope it comes soon Stopped waiting for you

Step back and look at where we've ended up this time  
Are you satisfied, getting by with with just enough Or  
are you ready to stop trying?  
Somehow we've been making it by But I'm tired of  
toeing the line
