Misery

[I.Hanson / T.Hanson / Z.Hanson]

Â© 2001 Jam 'N' Bread

This time I won't take you back
Something is coming to you
This time I'm gonna breathe a breath
Walking on down the road

I can never promise that you'll never be lonely
But as long as we're together,
We can always only be misery,
la da da da da

Last night I got off the bed
Cause I won't be the fool
This side the grass is greener than
The garden that I used to grow
Walking on down the road

I can never promise that you'll never be lonely
But as long as we're together,
We can always only be misery,
la da da da da
Misery
Misery

I can never promise that you'll never be lonely
But as long as we're together,
We can always only be misery,
la da da da da
Misery
Misery

This time I won't take you back
"cause I won't be the fool
