And won't you watch me bleed
Rock n roll razorblade
You can watch me bleed
Rock n roll razorblade, razorblade

Rock n roll razorblade
It cuts so deep, they failed to say
This rock n roll razorblade
For there's nothing left in this town
For a rockerball rolling down, yeah

Rockerball had to find
A way to ease his rocker mind
This rockerball he couldn't stay
'Cause there's nothing left in this town
For a rockerball rolling down
Well this rockerball is rolling down

Rockerball slipped away, ooh yeah
On a bus to L.A he found a band, he had to play
And said take a breath, look around
Well there's nothing left in this town
For a rockerball's brand new sound

Won't you watch me bleed
Rock n roll razorblade
You can watch me bleed
Rock n roll razorblade, say razorblade

Watch me rock n roll razor
Watch me rock n roll razor
Watch me bleed
Rock n roll razorblade, razor

Watch me bleed rock n roll razor
Watch me bleed rock n roll razor
Watch me bleed rock n roll razorblade
