Well, I gave you love, you know it  
So when did you outgrow it?  
And decide that you would find another man  
Well, you've been out there shakin'  
Tell the boys you're chasing  
When you get home, I'll be the bigger man

I've been thinking 'bout somethin'  
I've been thinking 'bout somethin' other than you

I ignored your reputation  
'Cause you send my heart racing  
You think I would always be the fool  
Well, I've run out of patience  
For this sticky situation  
You won't find me crying that we're through

I've been thinking 'bout somethin'  
I've been thinking 'bout somethin' other than you  
It's sad to say, but baby everyday  
I've been thinking 'bout somethin'  
I've been thinking 'bout somethin' other than you  
It's sad to say, hey

Well, if you're not too proud to beg  
I could give you some respect

That tune you're humming is never gonna change  
You didn't have to do what you did  
I didn't think you'd end it like this  
'Cause the love I've got is better than what you gave  
Well, I've got girls in line  
Waiting for these arms of mine  
Listen up to what I say

I've been thinking 'bout somethin'  
I've been thinking 'bout somethin' other than you  
It's sad to say, but baby everyday

I've been thinking 'bout somethin'  
I've been thinking 'bout somethin' other than you

Hey, hey, I took my best shot  
I've had enough of your tainted love you give me  
everyday  
I tried to limit the lonely nights  
But darlin' please, c'mon, c'mon  
I'm not gonna make that same mistake

You've been out there foolin', but I'm not thinkin' about  
you  
I've been gettin' the love that moves me, while you've  
been getting around  
You've been out there foolin', but I'm not thinkin' about  
you  
I've been gettin' the love that moves me, while you've  
been getting around  
You've been out there foolin', but I'm not thinkin' about  
you  
I've been gettin' the love that moves me, while you've  
been getting around
