Gold watch, big car, nice clothes  
Now you're living where the big fat sugar daddy goes  
Hey! Girlie, girl you're living on the big screen  
So don't play innocent with me  
Cos I know where you've been

What you get is what you see  
Can't break me down cos I believe in me in me  
All I wanted was just a little of respect  
But if sex is all you want. lay down on the bed  
See what you get

(CHORUS)

Don't go loving me no, don't you love me now  
Don't go messing me around  
You better, you better watch yourself  
Don't go loving me now, don't you love me  
You knocked my soul to the ground  
So don't go loving me now

Love, respect, honesty and trust  
These are the things you took in yourself  
And traded in lust  
You're playing a game, have you no shame  
You tried to make me feel special,  
But how could I believe

What you get is what you see  
Can't break me down cos I believe in me in me  
All I wanted was just a little of respect  
But if sex is all you want. lay down on the bed  
See what you get

(CHORUS)

Don't go loving me no, don't you love me now  
Don't go messing me around  
You better, you better watch yourself  
Don't go loving me now, don't you love me  
You knocked my soul to the ground  
So don't go loving me now
