

Happy Campers "Sucker Punch"

Visit "[Sucker Punch](#)" on MotoLyrics.com

Well I worked my whole life for other peoples benefit
Let them tell me what to do, when to run and when to
sit

At the end of it all I was left with nothing
All the money all the pride, it all went straight to them

And now I'm old and gray and I got no money left for
my final resting days

They left me with a pile of depends and a crummy
company watch

After 30 years a firm handshake feels like a sucker
punch to the crotch

They told me I've been replaced and my replacement

Don't need lunch breaks or any office space

In fact he don't even need to be paid

'Cause my replacements mass produced and man-
made
