I'm influenced by my friend
If there's a reason to cry
Oh friend you'll be (friend you'll be)
Forever close to me

I've confided in you my friend
Now we have something to do
Oh friend you'll be (friend you'll be)
Forever close to me
Oh and when the time comes
For them to see
We'll still be...

Oh living on faith of heart
Keeping love and fear far apart
We'll be running our own lives
Making someone out there realize
That we have a place
We've escaped the human race
There's a man at my side, a friend

We have passion for pride
Oh friend you'll be (friend you'll be)
Forever close to me
And when the time comes
For them to see
We'll still be...

Oh living on faith of heart
Keeping love and fear far apart
We'll be running our own lives
Making someone out there realize
That we have a place
We've escaped the human race
We've escaped the human race
