I believe that we are good
I believe that we are good
In my heart
There's no evil
So tell me why
Torture is alive and well
And death is all too common
In our worlds
At the hands of human
Need to find the key
I think I need to find the key
I think I need to find the key
I think I need to know the word
I think I need to find the key
I think I need to find it
I think I need to find the key
And open up my mind to the truth
You cannot defy their will
But I'd rather die than kill
Who is this god of hate?
Where does this malice originate?
What intruder is causing
The twist of a gentle heart?
The ability to harm life
Oh is it viral
Or is it just us?
Need to find the key
I think I need to find the key
I think I need to find the key
I think I need to know the word
I think I need to find the key

I think I need to find it
I think I need to find the key
And open up my mind to the truth
You cannot defy their will
But I'd rather die than kill
I said I said
You cannot defy their will
But I'd rather die than kill

But the biggest shock to me

Is always the apathy
The woman just stared
While the cat lay dying
Need to find the key
I think I need to find the key
I think I need to find the key
I think I need to know the word
I think I need to find the key
I think I need to find it
I think I need to find the key
And open up my mind to the truth
You cannot defy their will
But I'd rather die than kill
I said I said
You cannot defy their will
But I'd rather die than kill
