What will it be like
To get to know you from another side
Will it still be you
When you walk into another life

Will I always remember
How it was to feel you near
Is that what I fear

five pm addiction
cosy friction to me
weekday satisfaction
my attraction will increase

Supermarket love

I always felt so strong
Too strong to put away my pride
Maybe I was wrong
Maybe you would never change your mind

I will always remember
How it was to feel you near
Is that what I fear

five pm addiction
cosy friction to me
weekday satisfaction
my attraction will increase
five pm addiction
cosy friction to me
weekday satisfaction
my attraction will increase

five pm addiction
cosy friction to me
weekday satisfaction
my attraction will increase

Supermarket love
