shot me down and i'm falling
and in my head it's calling
you can be whatever you want to be, baby
i hide - you care for me
and you always say that you would see
angels in my eyes - and i can believe

so what you wanna say with your words
that i'm precious
and that i am something you can't buy
you can do whatever you want to do, sugar
when you mentioned heaven's pride
oh, you came to me to say:
"don't leave me alone - not this way!"

you're paying for the show
take me now, then go
don't forget what i am!

dancing in the spotlight
twisting, turning all night
i don't really care what you wanna ...
what you wanna do with me!
standing in the moonlight
waiting, walking all night
i don't wanna know what you wanna ...
what you wanna do with me!
cause i am what i am!

on your knees, you are begging
all i need is you money
you can say whatever you want to say, honey
i had dreams when i was young
now i prefer just to survive
so don't bore me again - it's my life!

you're paying for the show
please yourself and go
cause i am what i am!

dancing in the spotlight
twisting, turning all night

i don't really care what you wanna ...
what you wanna do with me!
standing in the moonlight
waiting, walking all night
i don't wanna know what you wanna ...
what you wanna do with me!
cause i am what i am!

i'm not that kind of girl, what I am, not that kind of girl
look at me, look at me, yeah
i am what i am!

dancing in the spotlight
twisting, turning all night
i don't really care what you wanna do ...
what you wanna do with me!
standing in the moonlight
waiting, walking all night
i don't wanna know what you wanna do ...
what you wanna do with me!

i am never gonna go your way
you are never gonna make me stay!

Iâ'm not that kind of girl
Iâ'm not that kind of girl
Iâ'm not that kind of girl
Iâ'm not that kind of girl
