

## Hard Stance "Clash Of Views"

A clash of views  
why don't you use your head?  
one interpretation  
can't be for everyone.  
a difference of opinion  
your mind to me seems to be closed.  
two enemies stand face to face  
talk it out but do not run.  
thats hard!

be free...free...FREE!  
from mental slavery  
loosen the chains within your strength.  
can't you see that ignorance  
only digs a deeper hole.  
only through persistence can we gain.  
but when you start  
thats when you lose control.

and stop us short of our goals
