I've never seen you look so bad  
It's been a long time since we had a good laugh  
It's time to make amends  
I do it cause I care about you  
It's all fatasies  
Nothing we've said  
But people talk and wish we've never met  
It's when you feel way behind  
They pick up everything  
One of a kind

I hate to bring you down  
The Horror of them all

(Chorus)  
Hateful  
All the Time  
Hateful  
Bring me down  
All the time

To see it different is to see it so clear  
They know your weakness  
That's your greatest fear  
It's when you feel way behind  
They pick up everything  
In my mind  
You're quite confusing  
It's hard to belive  
I feel weird  
I gotta wipe those tears  
I feel it coming  
I think I can see  
It's not you  
I'm talking about Me

You love to bring me bown  
The horror of them all
