Visit "[Hope For A Normal Life](#)" on [MotoLyrics.com](https://MotoLyrics.com)

I did not mean to stare no but  
Sometimes I need to see it my way  
There's some secrets I don't share  
The truth will only make you sad

Cause I know  
It won't show  
But I know for sure  
Your pain grows  
And I'm sure  
There's no love  
No more

Next time I hope for a normal life  
Next life I hope I'll do something right  
Next time I'll look for something that feels right  
Cause love made me evil  
Love made me lonely  
I just want to start all over again  
I'm not an evil man

Summertime it's been a while  
Can't see the sun just want to hide  
In my dreams I make you smile  
No drinks they only make me cry
