Has anybody seen my baby

She left when I talked to this lady

Nothing's true

Nothing to do

Would you like me to kill you

When I, when I glow

You mean streak shows

I don't, I don't know

So here I come

I don't need no goddamn company

Oh no

I don't want some pig to lecture me

Let me glow

Two-faced witch kept me up all night

No wish to make it right

What I've seen

Not pure

Not clean

Fits me perfectly
