Can't wait to get under your skin

I got a fistful o attitude

You just won't let me in

Why sleep with insanity

It's such a different approach

It fits me perfectly

No resistance

My decision

Nobody said

U better take it easy

I'm not a stranger

Why question me?

Starry eyes

Suspicious minds

Big fuckin' mystery

Problem solved with a cup of tea

If you don't recognize me

Sleep with stupidity
