Got a name
But no brain
When my baby goes insane
Just wanna leave her to walk alone
Painful
Shameful
All I really wanna do
I want to walk all over you

Remove my brain
Make me feel free
Remove my brain
Sedate me at least
I need a miracle
Remove my brain
Please help me

Alcohol
That's all
Been sick so many time before
I'll show you all my scars
Maggotrain
Ratbrain
All I really wanna do
I want to walk all over you

I need another brain
I need a woman who will keep me calm n' sane
They need to keep me calm n' sane
They need to remove my brain
Want to sedate my brain
Need to remove my brain
