

Acetone "Reality"

Visit "[Reality](#)" on MotoLyrics.com

Goin' up the street getting hot
Trying to be cool and on the dot
I see you across the street
I find my feelings not yet complete

I go to you
talk to you
chat with you

You say good bye
But seems like a lie

You seem to run away
And my whole mind turns gray

I just leave it
I don't mind.....
Cause it's...
Reality

Next day at the school
First thing go to the pool
I find you there
I hear the glare

I just try to
challenge
Cause it's....
Reality

Hey
Say

Hey
Say

.....Reality
