The moon don't shine and I don't see my road
again

Where's the light at the end where is my life lost

An ancient call, darkness fall around me

Spirals and fire, you'd put me higher again.

Where am I now? What should I see beyond?

No shining star to light my way home

Chorus:

Stone cold, heart of gold, set me free

Dark night, poison bite, fever dreams

Dã©jã vu I can't see trough

Leave me alone

A later dawn, brightness gone

Fever dreams

No edge on this town, only despair around

No candle to burn, where should I turn?

The day is gone and like a swan I sing my last song

Devil's daughter awaiting your slaughter,

you're lost.

Chorus:

Stone cold, heart of gold, set me free

Dark night, poison bite, fever dreams

Dã©jã vu I can't see trough

Leave me alone

A later dawn, brightness gone

Fever dreams
