I need to reach out and make you understand  
I'm not just a lonely heart in the palm of your hand  
Can you feel it baby you take my breath away  
Each night I hold you girl the world has no time  
Is love a chance of fate is my heart on the line ?  
I was a blind man and now you're all that I see

[Bridge]

Well, I've been waiting for you

All of my life

This feeling inside is too strong to fight

One look in your eyes and I know it's a fact

This time it's forever there's no turning back

[Refrain]

When love leads the way two hearts never stray

We're one night and day

When love baby when love leads the way

I feel you tremble with every touch of your hand

You want to run away well run if you can

From this feeling but you won't get very far

[Bridge]

'Cause baby tonight

This love that we found

Will take us to heaven

We'll never come down

[Refrain]

When love leads the way two hearts never stray

We're one night and day

When love baby when love leads the way

[Bridge]

Ooh if we follow our hearts day after day

Our love will know the way

[Refrain]

Ooh woo when love leads the way

When love leads the way

Two hearts never stray

Two hearts never stray

We're one night and day

We're one night and day

When love leads the way

When love leads the way two hearts never stray

We're one night and day

When love baby when love leads the way

When love leads the way two hearts never stray  
We're one night and day  
When love baby when love leads the way
